PAPERCUT TEMPLATE ON PAGE 35

How to make

1 Scan the template from page 35 into the machine and resize as per the instructions. Cut onto thin white card. Use the lifting tool to remove the card from cutting mat.

2 Choose your backing card or paper – avoid patterns and opt for a bold colour so the elements of the design will stand out.

3 Cut the paper to fit the design – this should fit into an A5 frame.

4 Put a protective sheet of paper under the cut-out design and spray glue adhesive onto the reverse.

5 Place the design carefully onto the coloured paper. Allow to set and dry.

6 Put the finished papercut picture into an A5 frame. A mount is not necessary, as one is included in the design.

Top Tip

If drawing your own design, join up all the lines to ensure a clean cut!
