FOX TEMPLATES ON PAGE 34

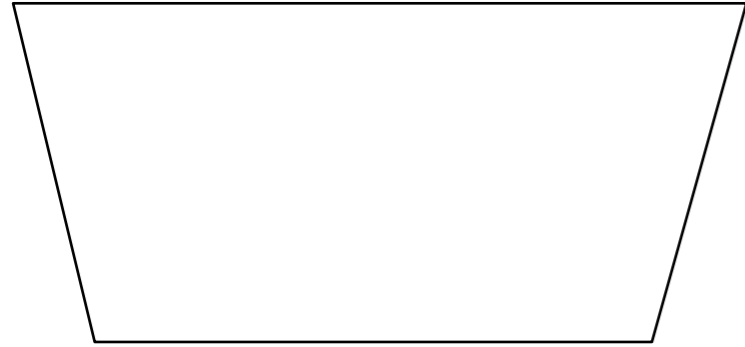

How to make

- 1** Cut out all the felt pieces using the templates from page 34. The body should be cut from brown felt and the features from cream felt.
- 2** Construct the facing front sides of the fox's body. Stick the cream felt pieces into place. Allow to dry.
- 3** Using black embroidery thread, sew on the nose and details to the ears. Using cream thread, stitch around the face and separate the tail and body with medium size back stitches.
- 4** To attach front and back pieces together, hand sew around the outside of the brooch, leaving a small gap to insert stuffing. Using a tool to poke in the stuffing, carefully fill the fox's body until it is nice and plump and has a good shape. Use cream cotton in small back stitches to sew up the gap.
- 5** Stick two green gems onto the fox's face for eyes and allow to dry.
- 6** Attach a self-adhesive pin or hand sew a pin in place on the reverse of the brooch, to finish.
